24. Inspect for air leaks
25. Evaluate general condition of equipment

North Valley Mechanical agrees to provide Comfort Club members discounted member rate pricing on repairs, \$20 off any applicable service call & diagnosis fee, and priority scheduling through the duration of the agreement for the unit specified. Priority scheduling does NOT include same-day or after-hours service. A Service Call & Diagnosis fee provides the customer a scheduled appointment, diagnosis of their HVAC system by a licensed professional, and a proposal for repair. North Valley Mechanical agrees to provide the plan holder; two preventative cleaning & maintenance appointments as outlined in the above check list. Cleaning & maintenance appointments will be scheduled at intervals of approximately six months, not to exceed nine months from initial service date. Failure to contact North Valley Mechanical and schedule second appointment within nine months of initial service date will result in forfeiture of second maintenance appointment. Service will be performed on the air conditioning & heating equipment listed below, during regular business hours, Monday - Friday, excluding holidays. Customer is responsible for contacting North Valley Mechanical to schedule service appointments and maintaining a valid email address and phone number on file. Any repairs required will be brought to your attention and a proposal will be given for your approval. North Valley Mechanical shall not be liable for: any loss arising from delay, failure to discover a condition requiring a repair or replacement, removal or containment of hazardous materials as a consequence of any performance under this agreement. This agreement does not include any parts or materials. This agreement is payable in advance and is renewable at your option each anniversary date. This agreement is non-refundable and cannot be transferred to an alternate service address. This agreement is transferable to a new homeowner, contingent upon the new homeowner contacting North Valley Mechanical within the contract's scheduling parameters.
